Education

Vellore Institute of Technology, Vellore

B.Tech in Computer Science & Engineering

Aug 2023 – Present

CGPA: 8.60

Experience

Software Intern – Strategy & Business Development

DS Group

May 2026 – Present

Noida, Uttar Pradesh, India

- Developing **technology-driven software solutions** and automating digital workflows within the Strategy & Business Development department of a leading FMCG conglomerate.
- Building and optimizing **internal tools and data-driven processes** to improve operational efficiency; collaborating with cross-functional teams on software development and analytics initiatives.

Winter Intern – Space Technology & Remote Sensing

India Space Lab

Feb 2026 – Mar 2026

Remote

- Analyzed **geospatial and remote sensing data** from satellite systems and UAV/drone pipelines to support real-world space-based engineering case studies.
- Collaborated with a **distributed cross-functional team** to design and evaluate technical solutions, gaining hands-on exposure to satellite data workflows and aerospace engineering processes.

Projects

VoidCheck – AI Code Review Platform [Live Demo](#)

React.js, Vite, Node.js, Express.js, Groq LLaMA 3.3 70B, LangChain

Apr 2026

[GitHub](#)

- Built a **full-stack AI code review platform** with an integrated **Monaco Editor** supporting 6 languages and GitHub URL ingestion, powered by **Groq LLaMA 3.3 70B** via LangChain for real-time code analysis.
- Engineered **structured JSON prompting** to extract health scores, categorized issues (bugs, security, smells), and multi-dimensional code metrics; deployed on **Vercel + Render** with Vite proxy-based API routing.

Smart Agriculture IoT System

Python, Streamlit, scikit-learn, MQTT (HiveMQ)

Apr 2026

[GitHub](#)

- Engineered an **end-to-end IoT smart farming system** with real-time **MQTT-based sensor ingestion** (soil temp, humidity, moisture) via HiveMQ Cloud, enriched with live weather data from the **Open-Meteo API**.
- Trained a **Random Forest crop recommendation model** (300 estimators) on a **2200+** sample Kaggle dataset achieving high accuracy, with **top-3 confidence-ranked predictions** and an interactive **rule-based farming chatbot** on a Streamlit dashboard.

Technical Skills

Languages: JavaScript, TypeScript, Python, Java, C++, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Vite, Responsive Design

Backend & APIs: Node.js, Express.js, REST APIs, JWT Auth, Serverless Functions, MQTT/IoT (Paho)

AI/ML: OpenAI API, Gemini API, Groq API, scikit-learn

Databases & Cloud: MongoDB, MySQL, Firebase, Vercel, Render, AWS

CS Fundamentals: Data Structures & Algorithms, Operating Systems, Computer Networks, OOPs, DBMS

Extracurricular Activities

Core Committee Member – Technical, Events & Design, IEEE CS VIT

Mar 2025 – Present

- Organized **hackathons and coding fests**, managing end-to-end logistics for **100+ participants**; led cross-functional collaboration for seminars and workshops.
- Contributed to **design initiatives** for technical events, creating promotional materials and visual assets to drive participant engagement.

Volunteered with **Hamari Pahchan NGO** for educational outreach programs supporting underprivileged children.

Secured **2nd Position** in Football at District Level (Noida).

Certifications

- Full-Stack Web Development** (Udemy) [Certificate](#)
- Mastercard Cybersecurity Job Simulation** (Forage) [Certificate](#)
- Deloitte Australia Data Analytics Job Simulation** (Forage) [Certificate](#)
- AI Skills Passport** (Microsoft & EY) [Certificate](#)
