Education

Vellore Institute of Technology, Vellore

Aug 2023 – Present

B.Tech in Computer Science & Engineering

CGPA: 8.60

Experience

Winter Intern – Space Technology & Remote Sensing

Feb 2025 – Mar 2025

India Space Lab

Remote

- Worked with **satellite systems**, **remote sensing analytics**, and **UAV/drone-based data pipelines** to analyze and interpret geospatial data.
- Collaborated with a cross-functional distributed team to design **space-based engineering solutions** through rigorous technical case studies.

Projects

Meetzy – AI-Powered Meeting Intelligence Platform

Feb 2026

React.js, Node.js, Express.js, MongoDB, OpenAI API

GitHub ↗

- * Architected a **full-stack AI meeting platform** with real-time transcription, automated summarization, and LLM-driven action item extraction using the **OpenAI API**.
- * Engineered scalable backend with **optimized MongoDB aggregation queries** achieving ~35% latency reduction, secured via **JWT authentication** and modular REST API architecture.

VeriLex – Legal Document Analyzer

Feb 2026

React.js, Node.js, Express.js, Google Gemini 1.5 Flash, Tailwind CSS

GitHub ↗

- * Built a **production-ready full-stack AI platform** using **Google Gemini 1.5 Flash** for risk classification, obligation extraction, and missing clause detection via **structured JSON prompting**.
- * Reduced manual document review time by ~70%; deployed on Vercel + Railway with **GitHub Actions CI/CD** and sub-3s response time.

BreakBias – AI Workplace Bias Awareness App

Mar 2026

React 18, Vite, Tailwind CSS, Framer Motion, Firebase Auth, Vercel Serverless Functions

GitHub ↗

- * Built a **dual-mode interactive React app** with AI-generated, role-personalized workplace bias scenarios via the Gemini API, backed by **Vercel Serverless Functions** and **Firebase Auth**.
- * Implemented a **rubric-based AI response evaluator** (communication, assertiveness, clarity, risk) with animated UI using Framer Motion and a graceful local fallback for uninterrupted experience.

Technical Skills

Languages: JavaScript, TypeScript, Python, Java, C++, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Framer Motion, Responsive Design

Backend & APIs: Node.js, Express.js, RESTful APIs, JWT Authentication, Serverless Functions

Databases & Cloud: MongoDB, MySQL, Firebase, AWS, Vercel, Railway

CS Fundamentals: Data Structures & Algorithms, Operating Systems, Computer Networks, OOPs

Extracurricular Activities

Campus Partner – Perplexity AI

Aug 2025 – Dec 2025

- Drove on-campus adoption of **Perplexity's new browser launch** through targeted outreach and live product demos, onboarding new users to the platform.

Core Committee Member – Technical & Events, IEEE CS VIT

Mar 2025 – Present

- Organized **hackathons and coding fests**, managing end-to-end logistics for **100+ participants**; led technical initiatives and cross-functional collaboration for seminars and workshops.

Volunteered with **Hamari Pahchan NGO** for educational outreach for underprivileged children.

Secured **2nd Position** in Football at District Level (Noida).

Certifications

- **Full-Stack Web Development** (Udemy) Certificate ↗
- **Mastercard Cybersecurity Job Simulation** (Forage) Certificate ↗
- **Deloitte Australia Data Analytics Job Simulation** (Forage) Certificate ↗
- **Complete Figma Megacourse: UI/UX Design** (Udemy) Certificate ↗
- **AI Skills Passport** (Microsoft & EY) Certificate ↗
